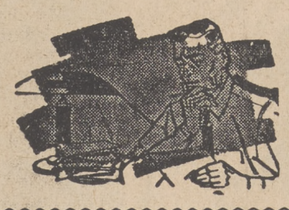
The DIMMER VIEW

by Max Goodwin



Mad Enough to Quit

Feller told us about a fight he had with his wife during the holidays.

"She said something that made me so mad I quit drinking from Christmas to New Year's Day," he said.

What did she say?

She said "You've got to quit drinking during the holiday season!" he confessed.

Tax Total Astounding

C. C. Moseley, chairman of the board of the Grand Central Industrial Centre of Glendale, is one of our most dependable correspondents.

He reminded us this week that The Tax Foundation, a private research organization, several years ago made a study of Federal and State taxes on certain products.

The Foundation reported that—

1. **A loaf of bread has 515 taxes**
2. **An egg has 100 taxes**
3. **A man's suit has 116 taxes**
4. **A woman's hat has 150 taxes**
5. **A house has 600 taxes**
6. **A piece of meat has even more taxes on it.**

High taxes and inflation, says Moseley, are direct results of government overspending (deficit financing).

Small Kink in Welfare's Road

Comes now the first glimmer of hope that a concerned state government will eye the welfare racket with more objectivity rather than with more sympathy.

Not all welfare recipients are involved in the racket and many welfare officials are objective. But the trend has been for more and more welfare benefits for more and more people with little concern for actual need.

The whole shebang has gone so far off course that many welfare recipients have reached the level where they are enjoying a better way of life than the distrssed people who are paying the welfare bills.

Some welfare homes we have visited boast princess telephones and color television, paid for by the working taxpayer. These, and many other items may be necessary accouterments to welfarism for the purpose of making the condition of welfare acceptance a little more palatable. If accepting welfare makes the recipient conscience-stricken, it may be that the recipient feels he is not entitled to all the welfare aid he is getting.

That's a rather involved introduction to the move by Governor Reagan to trim some of the fat from welfare giveaways.

If things go well, several thousand recipients will soon be dropped from the welfare rolls. The maximum number of hours the head of the household may work, under the new arrangement, will be 100 hours each month. Previously, the rule was for less than 40 hours a week to be eligible for a welfare program.

Alright, so those working more than 100 hours a month but less than 160 may decide to cut back and stay on the program. Maybe there'll be no actual reduction in numbers of recipients because of the new rulings — but for the first time, there is a tightening up. And that's a change in direction.

Logic warns that it is not possible for any society to survive with everybody taking it out of the pot — and nobody putting it back in. A small first step, as the astronauts would say, but a big step on the road to the return of a sounder welfare philosophy.

Sjogren, Stumbaugh To Step Down From School Board Posts

Samuel K. Solleder Retires From Assistant Superintendent Post

Trustees of the Lemon Grove School District accepted the retirement of Samuel K. Solleder, 61, Assistant Superintendent, Monday night, effective in June of this year.

Solleder, who lives in La Mesa, steps down from the position he held for 19 years, and leaves the district after 24 years of service.

Solleder started with the Lemon Grove School District in 1947, serving for two years as principal of Lemon Grove School, which was then the only school in the district.

Director of Education

In 1949, Solleder was named Director of Education for the district, a post which he held for three years until he became assistant superintendent.

Trustees sat in executive session for 20 minutes during the regular board meeting for re-organization of administrative positions, and named Robert Sutton Assistant Superintendent for Education.

Genevieve Oliphant became coordinator of pupil personnel, and a new post of project coordinator was created during the re-shuffling.

All positions will become effective July 1.

New Duties

Sutton will take over the better part of Solleder's duties in his new position, but will retain some of his old duties. He will work for 12 months instead of 11.

Oliphant, formerly the reading disabilities specialist for the district, will expand her duties to cover other special education work, including the coordination of the educationally handicapped program.

The new project coordinator will take responsibility for the remainder of Sutton's duties, working under Sutton's authority.

Screening Set

Screening for the project coordinator job will begin immediately.

In other board action, trustees approved the report on free and reduced price lunches, and approved bid specifications on electrical repairs at Monterey Heights School and approved bid specifications on a mobil van for the instrumental music department.

Twenty-nine students were approved to receive free lunches, while 10 other students were dropped from the program, and six students were dropped from the reduced price lunch program.

Current Totals

The changes brought the total number of students in the district receiving free lunches to 256, and brought the total students receiving reduced price lunches to three, not counting the students at Golden Avenue School.

All students at Golden Avenue School are eligible for reduced price lunches.

The district is re-imbursed for all free lunches and reduced price lunches served by Federal funds.

Bid specifications for electrical repairs at Monterey Heights School were approved by the trustees. The repairs will involve a faulty underground cable which is believed to have deteriorated.

Faulty Cable

The faulty cable has caused one of the school's two circuits to be inoperative, leaving the school with only one circuit for electrical power.

Bid specifications for a mobile van to house instrumental instruction for music students were approved at the meeting.

The specifications call for a mobile van which would be suitable to house up to 15 students at a time for instruction in instrumental music.

Trustees heard a report on another mobile van, used by the County to house career counseling, and specifications were modified to avoid shortcomings encountered by the county.

Curriculum Supplies

The board also approved the allocation of $10,500 from the budget for restocking of curriculum supplies, and approved a preliminary calendar for the 1971-72 school year.

The board also heard a preliminary report from Dr. Robert Sutton on his visit to the Valley View School District, where students attend school on a year-round basis.

Sutton told briefly of the advantages and disadvantages of the "45-15" plan, where students attend school for 45 days, then take a 15-day vacation.

Similar Plan

A similar plan is being considered by the Lakeside School District.

Sutton will make a detailed report and presentation at the next meeting of the board, which will be held February 22. His presentation will include slides taken during his two-day visit to the district, and taped interviews of students, teachers, and administrators in the district.

Broadway Project Obstructors Rapped At Club Confab

Lemon Grove's Broadway is a "mess" and likely to remain that way because a small group of property owners are obstructing the improvement, Bob Russell, president of the Lemon Grove Chamber of Commerce told the L.G. Rotary club Monday.

He said the "dirty, pot-holed parking area" on each side of Broadway was partly responsible for a lack of shoppers.

Russell, as chamber president, has spearheaded an improvement by which the parking area would be part of a County Service Area, and, as such, the County would maintain the parking, keeping it free of holes; stripe and sweep the property, and equally important, police it against litterers and wrong-way drivers. Policing is impossible now because parking is privately owned land. As a County Area, the Sheriff would enforce County laws. Property owners would pay the cost of the improvement and its upkeep as part of their regular tax bill. None outside the district would be charged.

L.G. Postmaster Frenchy Faucher, who shared the program with Russell, told that 94's on-off ramp will soon feed into Imperial at Broadway and the traffic flow on Broadway will double.

The County is going to put islands in when the road improvement is made later this year, Faucher said. "Without cooperation of Broadway property owners, filth and holes will continue to plague the community and many valuable parking places will be lost if diagonal parking is permitted in part of the improvement."

The program was part of a series by which local Rotarians are learning more about their community and its problems.

Jim Dorman, chairman of the Lemon Grove Planning Association will provide a program next month, Rotary President Lyle Stumbaugh said.

The club meets on Mondays at the L.G. Bowlero.

Veteran School Board Members to Retire

Lemon Grove will bid farewell to two veteran school trustees this summer when Lyle Stumbaugh and Robert T. Sjogren, who have served on the elementary school board a total 20 years, retire.

Stumbaugh, a certified public accountant, served a year as president of the board during his eight year's tenure. He served as clerk of the board four times.

Sjogren, an attorney, served 12 years and was president two years, vice-president four years and clerk one year.

Their retirement, on June 30, will leave Harry W. Buckner, Bert R. Cosby, and Leonard L. Klee the remaining members of the current board.

Notice has been published, as required by law, that an election for two posts will be held on April 20.

All qualified voters in the Lemon Grove Elementary School District may cast votes for nominees who have filed petitions by March 25.

Byron Netzley, district superintendent expressed regrets this week that the two members found it necessary to retire. "They have served the district well and their policies have helped us to become one of the outstanding districts in the county."

Any registered voters residing in the district may acquire forms for declaring candidacy and for the nomination of candidates for the election at the office of the Registrar of Voters at 5555 Overland ave. in San Diego.

Two candidates had acquired nomination papers by press time Wednesday it was reported. One, James Dorman, a Lemon Grove attorney who is the president of the Lemon Grove Planning Association,

said Tuesday that his experience would serve the district well.

Henry Reinecke, Jr., of 8321 Mt. Vernon, an engineer with Wavetek, an industrial electronic firm, also became a candidate this week.

Dorman lives at 7615 Circle drive and attended elementary schools in Lemon Grove; Helix High school, Pomona College where he earned a BA in economics, and Cal Western Law school. He spent four years in the Marine Corps.

He is president of the Old Time Days Association; a member of the board of directors of the Lemon Grove Chamber of Commerce, and an active member of the L.G. Lions Club.

Reinecke is vice-president of the Wavetek firm. He received his master of science degree from the Massachusetts Institute of Technology. He is a member of the L.G. Planning Assn. and is active in Little League, Y-Indian Guides, Band Parents Assn. and in Boy Scouts work.

He is past president of the Mt. Vernon PTA. His wife Jerry, is a member of the by-laws group.

If no others than two file for the race, no election will be held and the two will be appointed by the present board.

If an election is held, it will be conducted from 7 a.m. to 8 p.m. April 20.

Otay Water District Sewer Plan Approved

Approval of the Otay Municipal Water District's application for discharge requirements was granted by the Regional Quality Control Board at its regular meeting held January 27.

Otay's revised application locates the Jamacha Basin treatment plant in the saddle area between Mt. San Miguel and Mother Miguel Mountain, a plan which was submitted late in 1970 after district engineers had completed a new design for a water distribution concept. The plan also eliminates the Water Quality Control Board's previous objection to the original site located in the Sweetwater drainage basin.

The first Jamacha Basin reclamation proposal was denied on the basis that the location of the plant might create a threat of contamination to the waters of the Sweetwater River underground and the Sweetwater Reservoir in the event of plant failure, or during excessive rain periods. At the original hearing on the first Otay application, the Regional WOCB asked, as a condition of acceptance, the construction of a sewer discharge line to the Metropolitan Outfall System for emergency ocean disposal.

The approval of the revised applicated will allow the water district to provide the Jamacha basin with sewer service, including the proposed Rancho San Diego residential development which is now under construction.

"Otay's revised discharge proposal, just approved, does not require the emergency connection to the Metropolitan Ocean Outfall System," stressed Glenn M. Reiter, Manager of the Otay Municipal Water District. "The new plan will emilinate a capital construction burden of approximately 2.5 million dollars on the Jamacha Basin property owners.

"The capital construction cost of the reclamation program and the dual force main and pumping capacity to transport sewage from the Jamacha Basin to the higher ele-

Sentences Meted to Three Men Charged With Area Burglaries

SAN DIEGO (CNA) — Three young Spring Valley men, who had pleaded guilty to burglaries in the area, Monday in Superior Court were put on probation, with two of them getting terms in custody.

Randy Leon Noeggerath, 19, of Box 57, Highway 94; Gary Martin Tootle, 20, of 8922 Frederick st., and Craig Leonard Swanson, 18, of 10770 Jamacha blvd., all of Spring Valley, pleaded guilty in El Cajon Municipal Court on Jan. 15 to second degree robbery.

Four area burglaries were attributed to the defendants, but their pleas were to one committed on Nov. 18 at the home of Terry John Tipton, in El Cajon. Tipton reported that four young men had been seen by a neighbor removing hi-fi equipment and records from his home.

The three, with a juvenile, were traced through the car. Noeggerath confessed to his mother his involvement.

The juvenile was turned over to juvenile authorities.

The three appeared Monday for sentencing before Judge William P. Mahedy. The judge put Noeggerath on three years' probation, with the first year to be spent in custody. He put Tootle on three years' probation, with nine months at the honor camp. Swanson got two years' probation and a fine of $250 and ordered to complete his high school education.

Each defendant was ordered not to associate with any of the other co-defendants.

Other robberies that authorities tied to the three were of Mrs. Setsuko, a next door neighbor of the Noeggeraths; Wells P. McGregor in El Cajon, and Jewett's Market in La Mesa.

All three have been out on bail after a few days of original confinement.

S.V. Home Project Nears Sell-out

With projections calling for a first-quarter close-out at Carriage Hills homes in Spring Valley, the developers have announced that the community's five colorful model homes are now for sale at a savings to the public, according to Forest E. Foster, general sales manager for Barclay Hollander Curci, Inc.

"Situated in an attractive cul-de-sac on a gently sloping hill, the Carriage Hills model homes provide great savings to homebuyers on such items as carpets, drapes, landscaping, patios, special millwork and fencing. Many other items that go into the production of such homes are passed on to the buyer at a significant cost break," Foster said.

Marijuana In Auto Brings Two Arrests

A Lemon Grove man and his 17-year-old stepdaughter were arrested last week 1.2 miles west of Dulzura on Highway 94 when Sheriff's deputies found marijuana in their automobile.

According to reports from the Sheriff's Department, deputies observed the suspect vehicle parked at the side of the road at 11 p.m. February 2, and stopped to see if the occupants needed assistance.

The deputies contacted Harold Luther Anderson, 36, of 3705 Hilltop dr., Lemon Grove, and his 17-year old stepdaughter in the vehicle, where they detected the odor of burned marijuana.

Drug Seller Gets Fine, Probation

SAN DIEGO (CNA) — A 21-year-old Lemon Grove man was fined and put on probation Monday in Superior Court after being found guilty of selling dangerous, restricted drugs to an undercover agent.

Ronnie Paul Schaffer, of 7025 Waite ave., Lemon Grove, a carpet layer, was charged with a sale on July 30 in a San Diego apartment used as a "crash pad" by a number of narcotics users. The probation report showed that he only spent a month there and returned to his father's Lemon Grove residence.

He was found guilty in a non-jury trial on Jan. 18 before Judge Verne O. Warner. Judge Warner Monday put Schaffer on three years' probation, and fined him $300.

The judge also imposed the usual narcotics conditions, of not associating with users, of submitting to tests to determine if drugs are being used and of submitting to search and seizure without a search warrant being required.

Please explain how one may ask the question "What are you thinking about?" Also, how do you say "What do you think of him?" and "What do you think of her?"

"Pensar" is one way to say "to think." It is an irregular verb. This means that the letter "e" in "pensar" is changed to "ie" to construct "piensa" (you think). To form the question you suggested we say "En que piensa usted?" for "What are you thinking about?"

"Que piensa usted de el?" means "What do you think of him?" We change the pronoun "el" (him to "ella" (her) in order to ask "Que piensa usted de ella?" for "What do you think of her?" A response might be "Yo pienso bien de ella." for "I think well of her." or "Yo pienso afectuosamente de ella." for "I think affectionately of her."

"Creer" suggest "to think" in one sense. It meanse literally "to believe" but is frequently used to express "to think." Thus "Que cree usted?" can mean "What do you think?" or "What do you believe?" In response to the question "Van ellos hoy?" (Are they going today?), we might reply "Yo creo que si." for "I think so." As you can see, both "cree" and "creo" are variations of "creer" (to think).

"Creyo" is the past tense which means "thought" or "believed." Thus "Que creyo el?" means "What did he think?" or "What did he believe?" A suggested response might be "El creyo en ella." for "He believed in her." More specifically, we might say "He believed her."

"Penso" is one form of the past tense of "think" and means "He thought." "Que penso el?" also means "What did he think?" A response might be "El penso muchas cosas." for "He thought many things."

Rev. Virgil Simpson, pastor of the Spring Valley Friends Community Church, recently returned from Washington D.C., after a week's stay in the nation's capital.

Rev. Simpson, along with other Quakers of the nation, attended the Quakers Conference, sponsored by the Friends United Meeting and the Friends Commission on National Legislation. The conference was held at the William Penn House, the title being "Cooperation or Confrontation . . . In Building Peace in Asia in the '70s."

Speakers at the Conference were Senator Hurtle of Indiana, and Representative Lester Wolff of Port Washington, New York. Also Dennis Doolin of Omaha, Neb., the third highest ranking member of the Defense Department, spoke and answered questions.

Rev. Simpson said that various members of the Conference talked to people in Washington regarding Asia. It was brought to light the difference between "Red" and "National" China. Rev. Simpson said people are being urged to regard "Red" China as the "People's Republic of China," and the "National" Government as the "Republic of China." The feeling also is running high to "bridge the gap" and to let the "Red" or "People's Republic of China" to become a member of the U.N.

In other news of the S.V. Friends Community Church, the "True Believers," a young singing group, led by the pastor's wife, made a recent trip to the Friends Church of Ventura. "THE CHAPLAIN of Waikiki Beach," Lemon Grove's Bob Turnbull, and actress Brook Bundy in a scene from the popular television series, "This Is The Life." The episode is titled, "Is There A Man In The House?"

Grove Man Stars In Teevee Series

Veteran Hollywood actor Bob Turnbull of lemon Grove, now "The Chaplain of Waikiki Beach," is featured as a Christian social worker in the popular Lutheran television series, "This Is The Life." The title of the episode premiering the nation this Spring is "Is There A Man In The House?"

The story is about a dedicated social worker, motivated by strong Christian convictions, who helps to reunite a husband and wife separated due to the pressure created by poverty. The husband, stripped of his manly dignity as a recipient of the welfare check, had abandoned his wife.

The characterization of the Christian social worker was no transition for Bob Turnbull since his daily encounters with human tragedy in Hawaii helped to earn him the official title of "The Chaplain of Waikiki Beach." Recently, as Turnbull was preparing to leave Honolulu for a "Soul Talk Crusade" in California, he was summoned on an emergency. A man was standing on his front lawn with a gun pressed to his wife's temple. He wouldn't surrender or talk to anybody until he talked to "The Chaplain of Waikiki Beach." Turnbull sped to the residence and persuaded the man to surrender.

Turnbull said, "In answer to the question, 'Is there a man in the House', there is not a **total man** in the house or in the world until he becomes a complete **total man** through a personal religious experience.

Turnbull is the son of Dr. Amorita Treganza who lives on Kempf st. in Lemon Grove.

Joseph Wingert To Speak To Witnesses Assembly

Some 450 Witnesses from the Lemon Grove - Spring Valley area were informed, "All our neighbors who want to avail themselves of Bible instructions are entitled to be helped," by Joseph Wengert, District Supervisor of Jehovah's Witnesses, "and we want to give such help without any cost or obligation."

Wengert, who will be the principal speaker at the semi-annual assembly of the Witnesses, to be held at Russ Auditorium, February 12-14, will have completed his first six-month circuit covering parts

Wengert

of four southwestern states: California, Arizona, Utah and Colorado.

He said his observation is that a great public demand for Bible literature and Bible studies made available by Jehovah's Witnesses is rapidly growing on every side. And that, "Jehovah's Witnesses are meeting this need by placing more and more emphasis on the need for all of us to share more fully in this teaching and instruction work."

"A Visitor Once — A Friend Always"

This Sunday

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is for more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

IRS TAX ANSWERS

F. S. Schwaidt, DISTRICT DIRECTOR, INTERNAL REVENUE SERVICE

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q) To have you compute my tax, should I just bring my return into an IRS office?

A) No, the computation is done at the IRS service center for your area when you file your return. The IRS will figure your tax if your income is $20,000 or less and consists only of wages or salaries, and tips, dividends, interest, pensions, and annuities and you choose the standard deduction instead of itemizing deductions.

The IRS will figure both the retirement income credit and your tax for you if you meet the income and deduction requirements. Just follow the instructions at the top of Schedule R. Be sure to attach the necessary schedules and W-2's and sign your return. Further details on this can be found on Page 2 of the 1040 instructions.

Q) My son made over $1,000 last year. Does that mean I'll lose his exemption?

A) The amount of your son's dependency status if he was either a full-time student during five months of the year or under 19 at year's end. The support and other dependency tests must still be met, however.

Q) Since I was not married until last fall, I was single most of the year. Can I still file a joint return?

A) Yes, your marital status for tax purposes is determined by what it was on the last day of your tax year. For example, someone married on the last day of the year is considered married for the entire year.

Q) I've been told I don't have to pay tax on the pay I received while I was out sick. Is that right?

A) You may not be taxed on all or part of your pay received for periods of sickness provided certain conditions are met. Details on how to claim this benefit are given on Form 2440 which may be obtained from any local IRS office.

To summarize the sick pay provisions, if your company paid you more than 75 percent of your regular pay then you must waith 30 days before you can exclude any pay from income. After the waiting period, you may exclude up to $100 a week.

If you received 75 percent or less of your pay there is a 7-day waiting period. Afterwards, you may exclude up to $75 a week. After 30 days you may exclude up to $100 a week. However, if you were hospitalized there is no 7-day waiting period.

Q) I had about $45 in interest last year from several savings accounts. Do I have to list how much I got from each of them?

A) In cases where interest income is $100 or less, just enter the total amount of your interest income on the front of your Form 1040. When interest income is over $100 it has to be itemized by amount and payor and entered on Schedule B.

Q) My tax situation looks so complicated this year that I want to get some paid professional help this year. Where can I get a reliable person to help me?

A) Call your local accounting, legal or tax practitioner association. They will be able to supply you with the names of qualified people.

Avoid any person who "guarantees" you a refund or who suggests that the refund be sent to his address. Also, you should never sign a blank return or one that has been prepared in pencil. Remember, you are legally responsible for every item on your return even though someone else helped you prepare it.

Q) I had a loss on some shares of stock I sold last year. Is this deductible?

A) Yes, capital losses are deductible and can be used to offset capital gains. In addition, capital losses can be used to offset other income up to a maximum of $1,000 a year. The limit is $500 each on the returns of married persons filing separately.

Note that the 1969 Tax Reform Act did make some changes in the handling of capital losses. While short term losses are still fully deductible from ordinary income, only one-half of the excess of the net long term capital loss over the net short term capital gain is deductible up to the $1,000 maximum.

Q) My wife and I both work. Should we file joint or separate returns?

A) Usually, married taxpayers will pay less tax if they file joint rather than separate returns. Sincere there are situations where this is not true, figure your tax both ways to find out which is best for you.

Note that when separate returns are filed, deductions must be handled the same way on both returns. If one itemizes, so must the other. If the standard deduction is used, both must use the same type, either the percentage deduction or the low income allowance.

DOLL DOCTOR — Henry Brownrigg, owner of H&S Doll Orphanage and Hospital, which just opened at 7344½ Broadway, Lemon Grove, works on doll in his shop. Brownrigg and his wife, Shirley, opened the shop last week, which handles repair and costuming of dolls.

Two Local Students Honored At Science Youth Day Luncheon

Two students from local high schools were among students from 52 high schools in San Diego and Orange Counties who were honored at the annual Science Youth Day luncheon, held Monday at the Town and Country Hotel.

The students, all the top science students at their respective high schools, were accompanied by their science teachers at the luncheon, where they heard a presentation by Dr. Ulrich Merten, vice president for research and development, Gulf Energy and Envinronmental Systems, Inc.

Steven Williamson, Mount Miguel High School's representative, was honored along with his advanced senior physics instructor, Gary Swanson. Williamson, a 4.0 student is the son of Mr. and Mrs. Wesley Williamson, of 1983 Fairhaven, Lemon Grove.

Williamson not only ranks at the top of his class, but also is a member of the school's soccer team and is involved in student government.

From Monte Vista High School, Randy Jacobson was honored along with his honors advanced physics instructor, Dale Falter. Jacobson, who has taken nothing but honors classes at Monte Vista, sports a 3.953 grade point average and ranks sixth in his class.

The only "scar" on his academic record was in an honors English class, when he received a "B".

Jacobson, the son of Mr. and Mrs. Jack Jacobson, of 1282 Bernita rd., El Cajon, is one of the candidates for the top science student award at Monte Vista. The student selected for that honor will be awarded $1,000 in cash from the Bank of America.

The youth day luncheon, sponsored by the San Diego Gas and Electric Company, was the kickoff for National Electric Week.

Merten, a chemist and graduate of California Institute of Technology and Washington University, spoke of "Research Challenges of the 70's", discussing the relationship of technology and ecology.

Monterey Heights Sixth Grade At Camp Marston

Camping contingents this week come from Chula Vista, Lemon Grove, La Mesa, and the Lake Murray and East San Diego areas, according to City-County Camp Director Edwin Pumala.

Camp Marston is hosting the Lemon Grove contingent, consisting of 80 sixth-graders from Monterey Heights School. Michael Calderone and Cedric Stammerjohn are the accompanying teachers.

The nationally acclaimed "outdoor classroom" program serves 18,000 students a year. Some 300,000 San Diego students have enjoyed the experience in its 25-year history, Pumala says, including newly elected City-County Camp Commission Chairman Mike Schaefer. Councilman Schaefer participated as a student in 1948.

The program is jointly funded by the County and City of San Diego. Specially selected teachers are provided by the participating school districts and features the "discovery" method of teaching by making use of camp sight and experiences.

Special subjects taught by such methods include astronomy, geology, conservation, Indian lore and history, and ecology, Pumala notes. "Ecology is new to much of the country, but in San Diego County it is old hat," Pumala says, "we've been teaching ecology to sixth-graders for 25 years."

Barbara Paine Listed On UCSB Dean's List

Barbara Lee Paine, daughter of Mr. and Mrs. D. W. Paine, 10360 Cottonwood st., Spring Valley was named to the fall quarter, 1970, Dean's List after earning a 4.0 grade point average in classes at the University of California at Santa Barbara.

Barbara is a junior majoring in mathematics. She was one of 272 students to earn a straight A average at the coastal campus last fall.

Mount Vernon Students Continue With Work on School Newspaper

'Mt. Vernon Review' Third Edition Readied

Fifth and sixth grade students at Mt. Vernon Elementary School in Lemon Grove have definite likes and dislikes on subjects ranging from miniskirts to pollution — and now they are making their opinions known to others.

Through help from the Mt. Vernon PTA, the pupils are publishing a monthly newspaper, the "Mount Vernon Review."-The first two editions have already been distributed and work on the third is now in progress.

The newspaper is an outcropping of class discussions on journalism and newspaper techniques with Gabe DeNunzio, a PTA parent volunteer and member of the Caliente Race Track public relations staff.

The idea for a school newspaper was conceived last June and the first edition was published in December. Its purpose is to expose students to a press in a free society and to teach the resulting responsibility.

DeNunzio discusses various phases of journalism once a week with pupils from the classes of Loy Holmquist, Francine Applebee and Robert McNerney. From these classes, approximately 15 are chosen to work on the paper with a different group for each edition.

The staff begins its work by deciding which articles should be included in the current edition. Assignments are then given to reporters and, when completed, are read for corrections. All stories, page layouts and headlines are done by the staff.

"I make suggestions and the students also get ideas from teachers and parents but this is their newspaper and they do pretty much what they want," DeNunzio said.

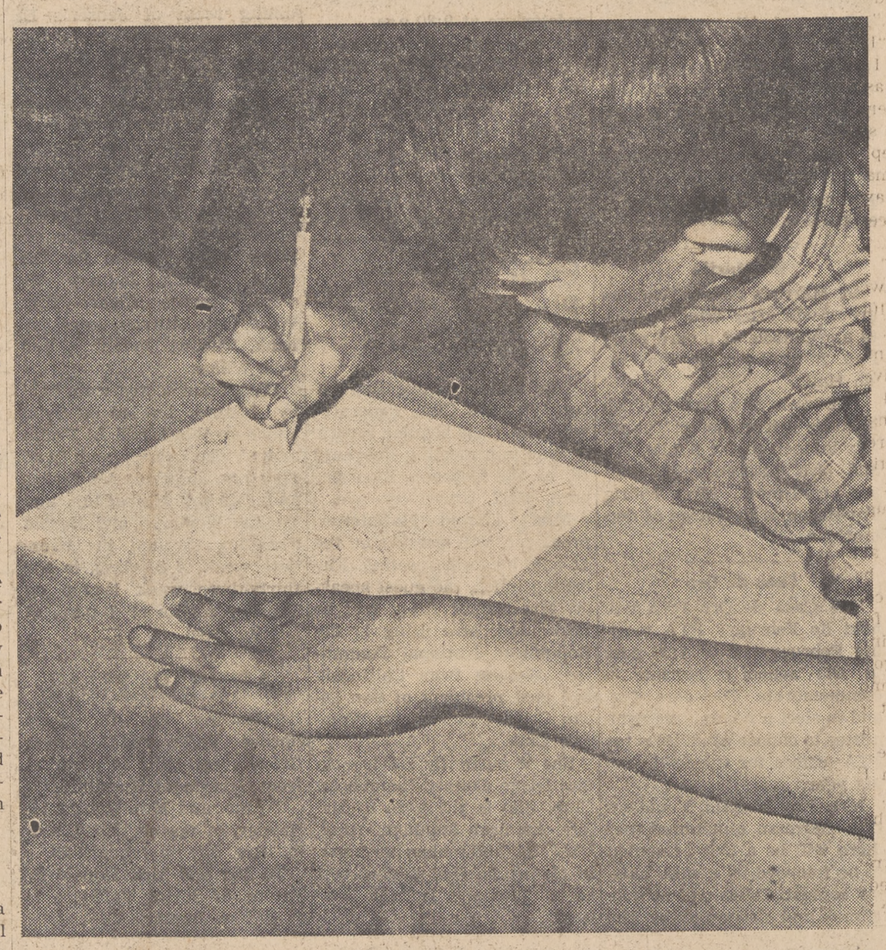
Articles have included stories on school camp, television and movie reviews and TV programs to watch, sports, student and teacher biographies, opinion polls, student birthdays, editorials and a classified advertising section. Future plans call for crossword puzzles and lost and found information.

Staff members have agreed that no editorial which criticizes will be accepted unless it can offer some form of solution. This policy was adopted to teach pupils to view both the pro and con of each issue.

The newspaper is mimeographed and distributed to all Mt. Vernon students without charge. The first issue contained seven pages while the second had six. Cartoons are used instead of photographs.

"Their questions can give you a real insight into their thinking processes," DeNunzio said. "They want to know about such things as fraud in advertising, ecology, the school curriculum, news coverage by the professional media and why more people read the comics than any other section of a newspaper. It's been quite an education for me."

CHECKING IT OVER — Celia Potter, left, and Rene Garcia, right, look over a recent issue of the "Mount Vernon Review", with advisor Gabe DeNunzio. The "Review" is published every month by fifth and sixth grade students at Mount Vernon Elementary School, under the guidance of DeNunzio, a PTA volunteer.



ARTIST — Since the Mt. Vernon Review doesn't use any photographs, all the artwork in the student paper must be drawn by such experienced cartoonists as Brian Luscomb. Brian is one of several cartoonists that have contributed to the paper.

Lemon Grove Students To Plant Trees

The Lemon Grove Kiwanis bought 6800 trees for the "Pennies for Pines" program, to reforest the area burnt over by the Laguna fire. The club paid $136 for the trees, which will plant two acres.

Louis Poluzzi, second vice-president of the Lemon Grove Kiwanis and Principal of Lemon Grove Jr. High School, will head a party of some one hundred students from the school, to do the planting on a site asssigned by the Forestry Service from the Laguna Ranger Station.

Poluzzi said the party will leave from the jr. high at 8:30 a.m. Saturday in buses provided by the Lemon Grove School District.

They expect to be on the site from 10 a.m. until about 3 p.m.

The youngsters will furnish their own lunches and bring shovels to do the planting. The group will also take drinking water. Most of the youngsters are from the Citizenship Classes of the school.

The Forestry Service issued a certificate per acre at the time of purchase. There will be a monument constructed at the site showing who the donors and planters are.

Classes Closed

All school classes in the La Mesa - Spring Valley School District will be closed tomorrow in observance of Lincoln's Birthday, and Monday, in observance of Washington's Birthday. These are in accordance with Assembly Bill 208, signed by Gov. Reagan on June 24, 1970 and effective Jan. 1, 1971.

All La Mesa - Spring Valley schools will resume classes on Tuesday, Feb. 16. Also there will be classes on Tuesday, Feb. 22, the actual date of Washington's Birthday.

Mats Roll On, Smash Foothillers

By Walt Ekard

The Mount Miguel Matador matmen continued to roll in Grossmont League competition with a 36-16 victory over the Grossmont Foothillers, Friday night.

The Matadors, who have won five in a row since an opening season loss to Monte Vista, fell behind 3-0 as lightweight Jim Minor was defeated, but never trailed again as they raced off to the win.

Among the Matador victories were wins by Mike Rhoades, Steve Fick, and Mark Shuff.

Also victorious for Miguel were Dale Siscon, Gino and Miguel Cesena, Greg Robinson, Lee Stewart and Mike Trebbian. Siscon and Stewart both won by forfeit which keeps Siscon undefeated in league and tournament competition.

The Matadors superb showing of late still will probably not be enough to win a league title as Monte Vista leads the league by one half game. However, the Mats will meet the Monarchs in the league finals and could avenge their early season loss.

The much improved Matadors have finished on top of the Monarchs in several tournaments lately and have beaten Helix, a team the Monte Vistans tied two weeks ago.

Alworth Back In As Charger Star

Lance Alworth announced Monday that he is dropping his law suits against the San Diego Chargers and National Football League.

"As of this moment, I consider the slate to be absolutely clean," said Alworth at a news conference. "I have reached a settlement with the Chargers which I feel is more than satisfactory to both myself and the club."

Terms of the settlement were not disclosed. A new contract was not part of the settlement.

On Dec. 7, 1970, Alworth had sued the Chargers for $5.6 million, alleging breach of contract, and followed it with another suit alleging anti-trust violation against the National Football League, Commissioner Pete Rozelle and all 26 NFL teams.

In announcing the settlement, Alworth made the following statements:

—"I am greatly relieved to have this burden off my shoulders and now be able to concentrate on football. I hope to be able to play for many years."

—"It always was my nope and intent to resolve the contract dispute without going to court. When the opportunity presented itself, I took it eagerly. My relationship with Gene Klein and Sid Gillman remained close and friendly during the dispute."

—"I would like to thank publicly my attorney, Don Augustine. He put a considerable amount of time and effort into my case and he always kept my best personal interest at heart."

—"My main motivation in seeking a settlement was the people of San Diego. They have gone out of their way to make this a home for me. I love this city and hope to spend the rest of my life here."

—"I came to the decision that I wanted to be remembered as a darn good football player rather than the guy who sued football."

Representing the Chargers, Gillman said, "I am delighted to have this matter resolved. I'm certain it will be reflected in Lance's football this season."

Alworth, 30, will be starting his 10th year with the Chargers. He ranks seventh among all-time leading pro football receivers with 493 catches for 9,584 yards and 81 touchdowns. He holds the pro football record of 96 for most consecutive games catching at least one pass. From 1963 through 1969, he gained at least 1,000 yards each season.

In another development running back Mike Garrett, who had considered a switch from pro football to baseball, will continue to play for the San Diego Chargers.

Announcement on agreement of terms between Garrett and the Chargers was made by Garrett's attorney, John H. Kerns, and Sid Gillman, executive vice-president and head coach of the Chargers.

Contract terms were not revealed, but Garrett said, "they were very attractive. I decided, after much deliberation, that my best long-range interests were to continue to play football. I want to emphasize that my desire to undertake a career in baseball was sincere."

Garrett said that other factors in his decision were "playing in San Diego, a city that's really nice and close to my home in Los Angeles, and playing for the Chargers. They have my kind of offense and I am looking forward to playing under Sid Gillman."

Creighton Club Schedules Party

Monte Vista Takes On League Leaders In Showdown Tonight

Bunting, Earle To Lead Monarchs Against 'Hillers

Monte Vista High School's basketball team will engage in a showdown with the rugged Grossmont Foothillers tonight at the Grosssmont gym in a game that could decide who wears the league crown.

Tipoff is scheduled at 8 p.m.

Grossmont, the team that has rode the top of the loop standings since early in the season, has knocked off the local team in league play, but lost to Monte Vista in a preseason tournament affair.

The Foothillers will have a towering front three, as center Ralph Drollinger (6-11), forward Kevin Enright (6-8), and forward Tom Foulds (6-6) lead one of the most explosive offensive units in the county.

Monte Vista will counter the Foothiller attack with the top defensive club in the league and a powerful offense, headed by Gary Earle, Allen Bunting, and Carl Stucky.

Earle, rapidly becoming one of the county's top all-around players, is third in the league in scoring, second in the league in free-throws, and one of the best defensive players in the county.

Bunting, who plays the post position, ranks among the top ten scorers in the league, and is a master at blocking shots and getting rebounds.

Stucky, who has been absent from the lineup much of the season due to injuries, is a hustling pest on defense, and along with Bob Papciak, leads the Monarch fast-break.

Grossmont tuned up for the contest last week by killing a slow-down effort by Granite Hills and spoiling a game effort by Mount Miguel.

Against the Granite Hills Eagles last Tuesday, Grosssmont watched the Eagles hold the ball for much of the first quarter before coming out in a man-to-man defense in the second period. The 'Hillers finally ended up on top, 28-12.

On Friday, the 'Hillers traveled to the humid Mount Miguel gym and beat a weakened Matador crew, 75-64. The Mats were without the services of John Slater, their top scorer, but came up with a good effort before the 'Hillers drew away in the final three minutes.

The Monarchs warmed up for the contest tonight by ruining Santana, 88-44, and blasting El Capitan, 75-51.

Gary Earle led the Monte Vistans in both games, as he came up with 22 points against Santana and 30 tallies against El Capitan.

Against the Sultans, Earle led the team to 14-7 and 23-18 leads with his outside shooting and good defensive play. The Monarchs were also aided in the game by 30 points from Center Allen Bunting, who also came up with great defensive plays.

On Friday night, the Monarchy continued to roll defensively, although shooting in the first half was cold. In the second half, it was all Monte Vista, as the Monarchs continued to shine on defense and started hitting from the floor.

TWO POINTS — Center Allen Bunting, of Monte Vista High School, will be on hand tonight to help his team as the Monarchs invade the Grossmont gym in a game that could decide who wears the Grossmont League crown this year.

Matadors Split Pair Of Games With Grossmont And El Cajon

Mount Miguel High School's lame but game roundballers are showing signs of rapidly becoming a team to be reckoned with, but have no chance of advancing in the league standings, as Helix, Monte Vista, and Grossmont have the top three positions sewed up.

Last week, Mount Miguel split a pair of games, sneaking by snake-bitten El Cajon, and dropping a tough one to the league-leading Grossmont Foothillers.

Against El Cajon last Tuesday, the Matadors resorted to good defensive play coupled with the inside shooting of John Slater to win, 62-60.

The game opened with both teams playing aggressive basketball and tight defense. Thanks to several turnovers and some key rebounds, Mount Miguel stayed with the fired-up Braves in the first half, and trailed by only one point, 32-31, as intermission set in.

In the first half, Mike Grover carried much of the burden for El Cajon, canning 15 points, while John Slater kept Mount Miguel alive with his inside shooting and rebounding.

In the third period, the game went pretty much the same way until Bill Matzen went to the bench with four fouls, enabling Mount Miguel to draw away to a 55-49 lead as the fourth period opened.

El Cajon made a valiant comeback in the final stanza, but the Mount Miguel defense hung on, holding Matzen and Grover scoreless.

The Matadors led, 61-58 with 30 second left in the contest, and a free throw made it 62-58 until Brave Dan Harris canned one with 13 seconds left on the clock. The Matadors tried to stall the game away after that shot, but the Braves got the ball just before the buzzer sounded and tried a full-court shot which missed the bucket.

On Friday night, with John Slater in bed with the flu, Mount Miguel put up a remarkable effort against league leading Grossmont, only to lose the game in the final three minutes.

Tom Young, the Matadors' defensive ace, started the game on the bench with a sore knee, but came in in the second period after the 'Hillers opened an 18-12 lead.

Grossmont kept the pressure on and held its six-point lead through the third period, and continued to stay just out of reach in the fourth period.

In the final three minutes, trailing by six points, Mount Miguel fell flat and Grossmont drew away for the win.

Mount Miguel will have another chance to show its balanced attack tonight when the Mats host Santana at 8 p.m. Mount Miguel lost the first contest with Santana, and will be "up" for the Sults.

Dwight Morris Named to Head Football Team

Mount Miguel High School has hired Dwight Morris, assistant football coach at Granite Hills High School, to take over as head coach of the Mount Miguel team next year, it was announced last week by Melvin C. Grant, principal.

Morris, who has been with Granite Hills for six years, will replace Ben Cipranic, who was removed from the football program earlier after losing nine straight games this year.

Cipranic said this week that he will not handle any coaching at all this year, although he will remain at Mount Miguel as a teacher.

Cipranic added that he will not seek a coaching position in the area in the near future, although he said he had some offers.

Cipranic said that although he hasn't met his replacement, he has heard a lot about him. "I think it'll be a real good setup," he added.

The new man has also had experience in other sports, as he coached the Granite Hills JV basketball team to a league championship and the varsity baseball team into the CIF playoffs for the past two years.

Morris is a graduate of Tulsa University, and coached at high schools in Tulsa and Lawton, Oklahoma, before coming to California.

"I'm real encouraged," said Morris, who will also teach academic subjects at the school. Morris said that he is currently interviewing the existing staff at Mount Miguel to see "what kind of staff I can put together."

No decision has been made yet as to whether or not the staff will undergo any changes. Any decision regarding changes in the football personnel must be made in conjunction with the school's administration.

"The main thing I'm trying to do is get an interest recreated in the kids at Mount Miguel," said Morris. "The physical potential is there."

Although he will not officilly begin his job at Mount Miguel until September, Morris is now holding meetings at the school several times a week to get his program organized.

After baseball season, he hopes to spend some time after school supervising the spring practice at Mount Miguel. He said that he likes his kids to participate in more than one sport, to keep in good condition at help other school teams.

Those who are not participating in another sport, however, usually work during the off-season with weights.

Warriors-Royals To Battle Rockets

The San Francisco Warriors and Cincinnati Royals, both featuring balanced attacks, invade the San Diego Rockets lair for a pair of important contests this week.

The Warriors visit the San Diego Sports Arena Thursday at 8 p.m. and the Royals of All-Time NBA great Bob Cousy follow on Saturday, also at 8 p.m.

Both opponents are in the important second place spot in their respective divisions with the Warriors behind the Los Angeles Lakers in the Pacific circuit and the Royals contesting the Baltimore Bullets in the Central Division.

Against the Rockets in four games this season, Coach Al Attles' Warriors have shown a balanced scoring output with center Nate Thurmond hitting at a 22.3 point per game clip; guards Jeff Mullins and Ron Williams at 21.0 and 16.0 respectively; and forwards Jerry Lucas, 17.8, and Joe Ellis, 16.5.

The Warriors have claimed all four outings against San Diego despite a 28-points average levelled at them in those games by Elvin Hayes.

Gulls Move To Second, Face Spurs

The San Diego Gulls, who regained second place in the Western Hockey League standings last week, will be trying to strengthen their hold on the runnerup spot when they take on the Denver Spurs at the Sports Arena tomorrow night at 8 o'clock.

The game tomorrow night closes out a two-game series with the Spurs, and the Gulls will then head out on the last long road trip of the season.

The five-game, 10-day road swing starts Saturday in Salt Lake City. By the time the Gulls return to the Sports Arena to battle Phoenix on Wednesday night, February 24, they will have played 33 of their scheduled 36 road games for the 1970-71 season.

Tomorrow night is also Valentine Sweetheart Night at the Sports Arena, as the Gulls salute their lady fans. Following the game, all ladies in attendance are invited to participate in the Special Valentine Puck Shoot, with Valentine chocolates and tickets to future Ladies Night games as prizes.

The Gulls and Spurs opened their two-game Sports Arena series last night with a Ladies Night game.

Foreign Students To Man Panel

"International Night," will be presented Feb. 18, at 7:30 p.m. in the Mt. Miguel High School gym and will feature Mt. Miguel's four foreign exchange students in a discussion of the causes of social unrest in America, as seen by the outside observer.

An interpreter will be present for the benefit of Spanish speaking members of the audience.

The program will also include dance and musical numbers by members of Miguel's bi-lingual and music departments. Members of the winning Matador soccer team will also be introduced.

The foreign exchange students manning the panel on social unrest are Maisu Aho from Finland, Sule Oguz from Turkey, Juergen Puetter from Germany, and Ana Vallejos, newly arrived from Chile. Questions on the topic from the audience will be taken.

Tryouts Set

The second of three tryout sessions for the Lemon Grove Little League will be held Saturday at the league field, 7550 Canton dr., adjoining Monterey Heights Elementary School.

Tryout times are 9-10:30 a.m. for 10 year olds, 10:30 a.m.-noon for 11 year olds and noon-1 p.m. for 12 years on the Major field.

The Minor field will be the site for 8 year olds from 9-11 a.m. and 9 year olds from 11 a.m.-1 p.m.

The final tryout session for all boys not able to take part in either of the first two tests will be Feb. 20. Lemon Grove's 1971 season play begins Apr. 18.

Saturday Registration Set For Bobby Sox

The Lemon Grove Bobby Sox League announced this week that the second of three registration periods of girls aged 9-14 who are interested in playing softball will be held Saturday.

Those desiring to register for the coming season can do so from 10 a.m. to 3 p.m. at the Lemon Grove Youth Center, 3146 School ln., Lemon Grove.

Pads Sign 3 Players

Don Mason, an experienced infielder who is defensively gifted at both short and second, has signed his 1971 Padre contract, it was announced by general manager Eddie Leishman.

Mason, 26, was acquired by the Padres in a December trade along with pitcher Bill Frost from the Giants for infielder Steve Huntz.

The Padres expect that Mason, who saw only limited service with the Giants in more than three major league seasons, will be a strong candidate for a starting infield position when spring training commences Feb. 21 at Yuma, Arizona.

The 160-pound bachelor has excellent range as both a shortstop and second baseman and figures to contribute heavily to the plans of manager Preston Gomez to improve the team's defense this season.

The left-handed hitting Mason has good speed and makes regular contact at the plate. In 1969 when he appeared in 104 games for the Giants, he complemented his 57 hits with 36 walks.

He is the type of leadoff or second place hitter who can reach base regularly that the Padres missed last year.

The Padres also announced that rookie pitcher Bill Laxton had returned his contract, bringing to 19 the number of players signed.

Laxton was the Padres' first round choice in last November's professional draft. A 23-year-old left-hander, Laxton had been a member of the Philadelphia organization.

Last season at Reading in the Eastern League Laxton had a 6-5 record and a 3.58 ERA.

Right-handed pitcher Mike Corkins, sidelined by injury in mid-season last year after an impressive start, has also signed his 1971 San Diego contract.

The 24-year-old Corkins won three consecutive starts during May and four of seven before suffering a severe groin injury on June 16. He was idled for nearly two months and pitched himself back into shape at Salt Lake.

He mixes an effective slider around his outstanding fastball.

Corkin's signing brings to 20 the number of Padres signed for the 1971 season.

Aztecs To Host Two Conference Encounters

The second round of Pacific Coast Athletic Association basketball competition will open this weekend as San Diego State hosts San Jose State and Fresno State.

State opens the two-game series Friday night against San Jose and then wraps things up on Saturday against Fresno. Both games have 8:05 p.m. tipoff times in Peterson Gym on campus.

The Aztec frosh will also be in action both nights, meeting Mira Costa College Friday and El Camino College the following evening. Starting time for these games is 5:45 p.m.

A chance to improve their position in the PCAA standings will be at stake for the Aztecs. State, 9-10 overall excluding the result of Monday night's game against Pacific, holds a 1-4 conference record. The visitors have also experienced troubles in league play, Fresno is 1-3 and San Jose is 0-4. The Spartans currently hold the nation's longest major college losing streak at 15 games.

"We'd like nothing better than to come up with a pair of wins," remarked Aztec coach Dick Davis. "We've been playing great basketball lately and two wins would be a real boost. It would give us a 3-4 conference record and move us into the middle of the standing.

"More importantly it would give us more incentive than ever," continued Davis, "for our final three games against the top three teams; UC Santa Barbara, Cal State LA and Cal State Long Beach."

The Aztecs had a few problems with San Jose in an earlier meeting, but prevailed in the end, 102-83. State wasn't as lucky against Fresno as it lost 97-96 on a three-point play in the final four seconds.

Of all the opponents to take the court this coming weekend, the one to command the most attention and respect will be Fresno's Jerry Pender. A 6-2 forward, Pender scored 35 points in the first meeting and was the hero with the three-point play. He's averaging 21.9 a game to date.

Premiere Miler Set For Annual Indoor Games

Chuck LaBenz, recently voted America's premiere miler for 1970 by Track and Field News, will run in the fifth annual San Diego Indoor Games, set Friday night, Feb. 19, at the International Sports Arena.

On the same track bill will be the annual San Diego High School Championships. Most of the leading preps in the County will compete in a full schedule of events.

LaBenz raced the mile in 3:56.8 in the Kennedy Games, defeating most of this nation's finest milers. It was the second fastest mile clocking of the year.

Goode Files For College Board

FILING — Mrs. Portia Goode is shown signing petition for re-election to the Grossmont Community College District Governing Board on line indicated by Charles Sexton, registrar of voters. Mrs. Goode filed for re-election February 3.

Not Candidate For High School District Board

Mrs. Portia Goode, president, Grossmont Community College District Governing Board, filed for re-election to that board February 3.

Filing for re-election to the College Governing Board automatically removes her from the list of possible candidates for the Grossmont Union High School District's Governing Board because of legislation enacted in 1968 separating the high school board from the college board.

Mrs. Goode has served on the high school governing board since 1956 and has been clerk of that board since 1969. Elected president of the college board in 1969, she had served as clerk of the college board since the formation of the college district in 1961.

An El Cajon realtor, Mrs. Goode has had a life-long interest in education. She is an honorary life member, National Congress Parent Teachers Association and is active in school board associations on the county, state and national levels.

She is past president of the San Diego County School Boards Association and has served on numerous committees in the California School Boards Association. Also active in the California Junior College Association, she is a member of the Governance, New Directions and curriculum committees in that organization.

Mrs. Goode is a director of the Foothills Family Service Association and the California Vocational Education Planning Committee for San Diego and Imperial Counties.

Aikido Offered At Grossmont

Grossmont College's Office of Community Services will offer a special evening class in the martial art of Aikido, starting this week. The non-credit class will meet each Wednesday evening from 7 to 8:30 through June 2.

This special course is open to both men and women and there are no minimum size requirements or physical qualifications required for enrollment. A nominal registration charge will be collected at the first class meeting.

According to instructor John Damian, a second degree black belt holder in Aikido, the course will stress the power of mind over body as well as self defense. The least known of the martial arts, Aikido emphasizes good exercise to attain physical well-being.

Additional information on this course may be obtained by contacting the Office of Community Services at Grossmont College.

Foothills Forum Makes Final Subscription Drive

The Forum of the Foothills is making its final drive for annual membership subscriptions, according to chairman, Paul E. Parker, M.D.

"This year's Forum speakers will focus upon subject areas of tremendous interest to the Heartland area including, responsibility of the news media, the drug abuse problem, civil rights, mental health and law enforcement," said Parker.

Internationally known editor in chief of the Christian Science Monitor, Erwin D. Canham, will be the Forum's first speaker on Sunday evening, February 21.

"In order to attract five nationally recognized speakers, we have made the heaviest financial commitment this year of any of the previous Forum series. We need about 800 subscriptions to this year's Forum in order to finance speaker's fees and expenses. We have received more than 200 subscriptions to date," Parker said.

Subscriptions to the Forum series of five speakers are $5 for an individual, $10 for family and $50 for a sponsor subscription. Sponsors are given ten memberships to use any way they see fit," Parker said. "In the past several organizations such as service clubs, churches, private firms, and other groups have purchased sponsored memberships and made the tickets available to their members at no cost," he said.

Tickets for individual lectures will be $3.50 for non-subscribers. For information call 466-4712.

Each winter something like 72-million school days are missed because students have respiratory and infectious diseases, according to the U. S. Center for Disease Control.

Association Starts Drive

Campaign headquarters for the San Diego Community Concert drive will be located at Thearle's in Mission Valley according to Mrs. Mac Dougherty, Association president. The headquarters will be opened all next week, from 9 a.m. through 5 p.m. as the central office for the several hundred volunteer workers who are renewing memberships and seeking new members for the concert group.

There will be a staff on duty at all times to answer calls seeking information about the 1971-72 concert series. The phone number is 298-6662.

Individuals interested in joining but who have not been contacted by a worker can join by calling this number or stopping by the campaign headquarters in Mission Valley.

Memberships in the San Diego Association are $9 for adults and $5 for students. Membership entitles individuals to attend all five concerts presented during the 1971-72 concert season. Individual performance tickets are not available and attendance at the concerts is by membership only.

THIRTY YEARS OF SERVICE — Third District Supervisor Harry Scheidle, left, presents a 30-year service award to James Colquhoun, Director of the Communications and Electronics Division of the San Diego County Public Works Agency. In the presentation, he was cited as "one of the most productive and effective employees ever to have served the County."

Two Films To Be Shown This Evening

Grossmont College will continue its Academy Award Series of films when the "Anatomy of a Murder" and "Room at the Top" are screened at 7:30 p.m., tonight in the Fine Arts Lecture Hall.

The "Anatomy of a Murder" is a dramatic suspenseful version of a best selling novel starring James Stewart, Lee Remick, Ben Gazzara and George C. Scott. It is the gripping story of a small town attorney caught up in the startling events of a sensational court trial.

The realistic courtroom melodrama is based on a factual case of murder and rape originally described by a judge in a popular mystery novel. The almost unbearable suspense is brought to a thrilling climax when James Stewart, as the defense attorney, brings forward a dramatic but obscure legal precedent to use in his client's behalf.

The "Anatomy of a Murder" received academy award nominations for Best Picture and Best Actress. It was selected as one of the Ten Best and top grossing pictures of the year, and also received the Best Actor Award for James Stewart from the Venice Film Festival.

"Room at the Top" is the story of a young man of low birth who moves up the ladder of success by marrying the daughter of the local industrialist, giving up along the way an older woman he really loves. A film that leads the trend for realistic film making, 'Room at the Top" can be enjoyed on many levels — for its acting, for its script, its excellent directing and overall high standard of film-making.

The public is invited to view the two award-winning films. The price of admission is 50 cents, with tickets available at the door.

Actress Lynn Redgrave refuses to appear in nude movie scenes because, she says, among other reasons, clothing, "is the last realm of privacy."

Questionnaires On Auditorium Sent In Mail

Questionnaires on possible use of a college-ommunity auditorium have been mailed to more than 100 Inland Empire organizations and civic groups by the Citizens Committee for the Grossmont College-Community Auditorium.

According to Mrs. Joseph A. Del Nero Jr., chairman of the citizens group for the Grossmont College-Community Auditorium, the questionnaires were forwarded to the various organizations and groups to determine the number of times per year individual groups might use the proposed 1500-seat auditorium.

The stagehouse portion of the proposed college-community auditorium was erected in 1966 on the Grossmont College campus. Since that time many fund-raising projects, individual donations as well as community service over-ride tax allocations have been set aside to complete the seating portion of the college-community cultural center.

It is anticipated that responses received on the returned questionnaires will assist the citizens committee in determining auditorium design and useage. Additional questionnaires may be obtained by contacting the Community Services Office at Grossmont College.
